

CHANNEL 4

“A Question of Quality”

Why International Certifications Matter

These days, the quality of what we eat is of major concern to the public.

In a society that demands so much from us all, who would dare put at risk something as essential as health?

No one, of course. Most of us treat our food with the care and respect it deserves.

So do we.

The control of the entire value chain throughout the channel is our priority.

From the moment they are cultivated, we treat our crops with kid gloves to ensure the maximum safety.

Harvesting, selection, storage, packaging ... All of these parts of the process are key.

The result is a product of exquisite quality.

Need guarantees? We'll be happy to oblige...

1. At Frutas Montosa we work according to the maximum quality standards.
2. Our Quality Control department continually carries out strict analyses.
3. We test our products at Spain's *Superior Council for Scientific Research* (CEBAS).
4. Currently our management system works with the most rigorous certifications of our field.

Now you'll understand why Frutas Montosa is the market leader...

It's all for you.
